

Production Worker

This is a casual position but could be made permanent for the right person.

We specialise in designing and making customised products for the quarrying and construction industries. We pride ourselves on problem solving for our customers' unique needs and often that will involve thinking outside the square, creating fresh solutions and heading into new territory.

With a highly varied workshop, we are a true manufacturer - which is extremely rare in Australia these days - so production tasks are diverse (more than most workshops) and challenging.

We are looking for an enthusiastic and hard-working individual with an eye for detail, to join our growing team. As a production worker, you will be the backbone of our manufacturing processes.

The role:

- Interpreting job cards and the daily manufacturing of products for our customers.
- Hands-on, manual and technical work including welding, using presses, lathes and guillotines.
- Ensure machines are kept in good working order.
- Workshop maintenance, raw material replenishment and housekeeping.
- You must work to deadlines and follow strict safety guidelines.
- This role reports directly to the Workshop Manager.

About you:

We are looking for someone with:

- Experience with machine operation and/or hand tools.
- Previous manufacturing experience.
- A strong work ethic, integrity, reliability, and pride in the quality of their work.
- Practical and efficient problem-solving abilities.
- Receptive to constructive feedback and always open to trying and learning new methods and techniques.
- A forklift licence is desirable but not essential

We offer:

- A positive, inclusive, and familial work culture with an emphasis on innovation
- Training and guidance from our expert team
- A competitive hourly rate
- An opportunity to be an integral part of the Australian manufacturing industry
- Early Fridays (we work 7am-4pm on Monday to Thursdays, with a 1pm finish on Fridays)

To apply:

- Please submit a letter of application and a CV to info@symphonywire.com.au
- Please include your available start date in your application.
- The successful applicant will be required to undertake a full pre-employment medical, including a full physical component along with drug and alcohol testing.
